**ABOUT ME**

---

I graduated from the University of Dirgantara Marsekal Suryadarma, majoring in Industrial Engineering. Having professional and academic experience in industrial such as theoretical and practical knowledge related to industrial and its derivation has been really familiar to me. Beside of that, I active in internal and external organizations. At the end of my studies, I was able to adapt to the world of work. So I can do work at the same time as college. However, I managed to graduate on time with a 3.41 GPA. I can operate Microsoft Office and technical drawing software. I'm a disciplined and high motivated person. Also capable to solve problems in general and excel at both individual or team work. Lastly, being an adaptable person is also one of my strongest traits which I expect will help me a lot to be a well-functioning employee in my future workplace.
